

CURRICULUM VITAE **LUCIANNE GROENINK**

Lucianne Groenink, PhD

Associate professor of Psychopharmacology

Faculty of Science, Utrecht Institute of Pharmaceutical Sciences

Utrecht University

The Netherlands.

Contact address: Universiteitsweg 99, 3584 CG Utrecht, Netherlands,

E-mail: l.groenink@uu.nl, Phone number: +31 620264459

Outline Lucianne Groenink has an independent research group which studies brain mechanisms that contribute to the development of stress-related disorders, including anxiety, depression and schizophrenia. Using a multidisciplinary research approach she aims to contribute to the development and validation of novel drug targets for disease treatment. Special emphasis has been on the interaction between serotonergic, GABA-ergic and corticotrophin releasing factor (CRF) systems.

Lucianne Groenink has collaborated in several academic and industrial research programs and has (co)-authored over 70 peer-reviewed papers, in the field of Psychopharmacology (*H*-index 24). Groenink teaches at the department of Pharmaceutical Sciences (Utrecht University) and frequently lectures in expert meetings and workshops on psychopharmacology, *in vivo* animal models, drug development, experimental design and biostatistics and ethical aspects of animal research. In 2009, she was elected board member of the European Behavioural Pharmacology Society.
